ABOUT ME

I have a deep interest in physics, a field I am currently studying, which allows me to explore and understand the fundamental principles that govern the natural world. Through my studies, I have developed strong problem-solving skills, using the scientific method to approach challenges logically and effectively. This process has taught me to analyze situations critically and find practical solutions to complex issues.

At the same time, I am equally passionate about programming, an area that fascinates me for its ability to solve problems and create innovative solutions. By learning languages like C, Python, PHP, and JavaScript, as well as web technologies such as HTML and CSS, I have built a strong foundation in coding. Programming not only enhances my problem-solving skills but also fuels my creativity, enabling me to turn ideas into functional tools. This combination of physics and programming drives my curiosity and inspires me to continue learning and growing in both domains.

You can find all the projects I have worked on at the following link:

EDUCATION AND TRAINING

Department of Physics AUTH

Aristotle University of Thessaloniki [2022 – Current]

City: Thessaloniki | Country: Greece | Website: www.physics.auth.gr

LANGUAGE SKILLS

Mother tongue(s): Albanian

Other language(s):

Greek

LISTENING C2 READING C2 WRITING C2

SPOKEN PRODUCTION C2 SPOKEN INTERACTION C2

English

LISTENING B2 READING B2 WRITING B2

SPOKEN PRODUCTION B2 SPOKEN INTERACTION B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Physics / Mathematics / computer Programing / Electronics / Web Applications / React Framework / Microsoft Office / Python / C
